

## Mohammad Shaheer Landscape Trophy FAQs Set 1

1. Can the site selected be in 3 different patches? All 3 at a common junction of 5 roads and are 30 meters apart?

**Yes, the idea is to insert meaningfully designed open spaces in the existing urban landscape. They can be in parts, but eventually should read as a whole intervention.**

2. The brief states that the maximum area of the chosen site cannot be more than 1500 sq. m. The brief also states that the plan of the site must be at least of a scale of 1:100. What if the site has a courtyard in between? Therefore, the area of the chosen site is less than 1500 sq. m. but if the plan of the site is drawn on a scale of 1:100 then, it won't fit on an A1 sheet. What is the solution in this case?

**A scale upto 1:200 is permitted, but attention to detail in the design will be appreciated. Detail sections can be 1:100 or even larger.**

3. How many minimum/maximum entries can be sent by a college (both member and observer)?

**Each unit, irrespective of its membership status (member or observer) can submit up to a maximum of three entries**

4. Is the orientation video part of the brief?

**Yes, the orientation video is a visual resource which can help in any landscape project in general and this brief in particular.**

**Link: <https://www.youtube.com/watch?v=sa6DBwfwNI>**

5. What are the registration and submission dates?

**The deadlines for Registration and Submission will be announced along with Group B trophies.**
